## Tremec TKO Wiring

### REVERSE LIGHT HARNESS

- One wire to 12 volt +
- One wire to the reverse lights
- Doesn't matter which wire goes where.

### VEHICLE SPEED SENSOR (VSS)

- **Used for electronic speedometer output.**
- **If you are using a mechanical speedometer, this sensor will not be sued. But please leave in place.** If you are using the VSS, please use quality aluminum plug to plug the mechanical speedometer hole. Do not use the rubber shipping plug.
